

XCEL SEMINARS

4th Annual Comprehensive Dental Skills Series

The Knott's Berry Farm Resort Hotel

Nov. 11, 2012: OSHA, Infection Control & the CA DPA

Nancy Andrews, RDH, has entertaining methods to help the dental team navigate the sea of state and federal regulations.

Dec. 9, 2012: Practical Endodontics: Treatment Planning, Techniques and Materials for GPs

Dr. Robert Salehrabi, is Associate Professor of Clinical Endodontics at the University of Southern California, the recipient of the International Endodontic Federation Research Award, was a general practitioner for over 10 years before becoming an endodontist and currently maintains a private practice limited to Endodontics.

Feb. 10, 2013: Comprehensive Clinical Perio for GPs

Dr. Jon Suzuki is one of the premier periodontists in the country, Director of Graduate Periodontology and Oral Implantology at Temple University, former Dental School Dean at the University of Pittsburgh and lectures internationally.

Mar 3. and 10, 2013 (Two Consecutive Sundays): Intro to Dental Sleep Medicine (This Course is two days and 14 total CEs)

Dr. Marty Lipsey teaches how to develop a patient and physician friendly dental sleep medicine practice, including all aspects of private pay and Medicare insurance billing.

The Knott's Berry Farm Resort Hotel

(Beach Blvd Exit off the 5, 405 & 91 Fws) 7675 Crescent Ave, Buena Park, CA

All Courses are on Sundays (8AM-4PM) and 7 CA & AGD CEs each

**\$139 PER LECTURE,
\$269 FOR THE TWO-DAY SLEEP MEDICINE COURSE OR
THE 4 COURSE SERIES (35 CA & AGD CEs) FOR ONLY \$499**

COURSE SERIES
SPONSORED BY:

COURSE TOPICS

OSHA, Infection Control and the CA Dental Practice Act: This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, the California Dental Practice Act and Infection Control.

Practical Endo: This seminar will discuss the latest practical information regarding endodontic diagnosis, treatments, new game-changing materials and files and a plethora of cases that attendees will discuss in an interactive format, including: What is affecting treatment outcomes? ♦ Rational, evidence-based case selection ♦ Endo-perio interrelationship ♦ Procedural errors and their prevention ♦ Dentine replacement materials and its many applications in complex cases ♦ Restoring endodontically treated teeth with bonded core composites ♦ Diagnosis of cracked teeth & treatment options ♦ Endodontic retreatment vs. implants—when, where & how to decide ♦ The latest on canal irrigation techniques.

Comprehensive Perio for GPs: This course will emphasize advances in periodontal diagnosis and treatment planning, for more predictable non-surgical and surgical therapies. Topics will include: Ultrasonics ♦ selective use of systemic antibiotics ♦ local drug delivery systems ♦ concepts of periodontal and implant surgeries, including regeneration ♦ case presentations will include non-surgical and surgical periodontal therapies, implant, site preparation and ridge preservation surgeries.

Sleep Medicine: March 3rd Topics include—Introduction to sleep - sleep stages, disorders ♦ Prevalence - why is there a need for treatment? ♦ Sleep apnea signs/symptoms/clinical issues Treating snoring and sleep apnea in a dental office - protocol review ♦ Patient education; addressing key issues and getting a snoring patient to convert to a sleep apnea treatment case ♦ Prepare Embletta X100 home sleep study for course attendee(s)
March 10th Topics include—Download previous week's Embletta X100 study, review study data and sleep report with class ♦ Demonstration of Pharyngometers & Rhinometers ♦ Working with popular oral appliances like the TAP, Respire, EMA and more! ♦ Appliance review - pro's and con's of all of the major sleep appliances ♦ Medicare and Dental Sleep Medicine. What's it all about and how can this be a benefit to my practice? ♦ Medical insurance billing "From A to Pay" with a review of the latest codes, fees, procedures and recommendations, covering protocols for both private pay medical insurance and Medicare.

REGISTRATION

TUITION	4 COURSE SERIES	EACH INDIVIDUAL COURSE
More than 14 days before an event	Dentist: \$499 Staff: \$249	Dentist: \$139, Staff: \$119 (Two-day sleep course is \$269)
Less than 14 days before an event	Dentist: \$499 Staff: \$269	Dentist: \$159, Staff: \$139 (Two-day sleep course is \$289)

Fees include continental breakfast, CE credits and free hotel parking. Registration is at 7:30am, the course is 8am-3:30pm. It is an extra \$20 fee for all onsite and walk-in registrations.

Program: 8:00 am to 5:00 pm**

Embassy Suites Hotel-Anaheim South, 11767 Harbor Blvd., Garden Grove, CA 92840
Phone: 714-539-3300 8 CE Units

Free Parking Continental Breakfast Fabulous Buffet Lunch

This workshop will concentrate on two areas. 1) How to incorporate new endodontic material science into your practice, and 2) How to perform root-canal therapy in such a manner that you can actually enhance the long-term prognosis of teeth. The goal of this program is to have all attendees learn how to perform endodontics in such a manner that they can offer their patients a predictable long-term natural dentition option as an alternative to just removing the tooth and placing an implant. Of course, as you will learn, clinical judgment plays a key role in the treatment planning of these cases. Included in the lecture component will be a thorough discussion concerning access, non-surgical ultrasonic use, rotary file design, instrumentation techniques and a new bioceramic obturation method. Particular emphasis will be placed on developing endodontic synchronicity between a machined preparation and a laser verified master bioceramic coated cone. Additionally, a new obturation technique (Synchronized Hydraulic Condensation) will be introduced and all participants will have the opportunity to validate these concepts during the hands-on session.

The hands-on session provides you the opportunity to use “Real World” techniques and to witness first-hand how they will change the way you practice endodontics. Time will also be dedicated to preventing the separation (breakage) of rotary files, and the use of piezo-electric ultrasonics. We intend to give you the facts so that you can decide the best way for you to do endodontic therapy.

The Registration Form and Additional Information are on the Other Side

Dr. Nader Vafaie is being sponsored by Brasseler, USA and Real World Endo. Dr. Vafaie received his DMD and MMSc from Harvard University, and received an MS in molecular biology from the U. of Utah. He has conducted research and written articles on periapical microorganisms and pathology while conducting a private practice in Novato, California. He is considered a “cutting-edge” endodontist.

Attendees should bring extracted teeth with occlusal access holes cut in them.

Endodontic Hands-On Workshop December 2, 2012 You Will Learn the Following:

1. How to create straight-line access that will expedite the endodontic process.
2. Discover how endodontics can be precision based in your practice.
3. The importance of preserving coronal radicular dentin.
4. How to "machine" or "mill" an endodontic preparation in your hands.
5. The benefits of developing endodontic synchronicity between prep and cone.
6. The multiple advantages of performing a constant .04 taper preparation.
7. Learn the new synchronized hydraulic condensation technique.
8. How best to restore an endodontically treated tooth.
9. Learn the multiple benefits of piezo electric endodontics.
10. How to perform endodontics in such a manner that you do not compromise the long-term prognosis of the tooth, but enhance that prognosis.

The SCAGD annual business meeting and voting on board members will be held during this meeting. Nominations from the floor will be accepted.

How To Use Botox Therapy in Your Dental Practice

Speaker-Instructor: Andrew Blumenfeld, MD

Introductory Comments by John S. Bettinger, DDS, Immediate Past-president of
The Dental Board of California

Sunday, December 16, 2012 Registration 7:00 am to 8 am
Program: 8:00 am to 5:00 pm

Embassy Suites Hotel Glendale, 800 North Central Ave, Glendale, CA 91203
Phone: 818-50-0828 8 CE Units

Free Parking Continental Breakfast Fabulous Buffet Lunch

Botox therapy has many uses in dentistry. Your California dental license already permits you to treat various dental related conditions by injecting botulinum toxin(Botox). This course will cover the uses and instructions for botulinum toxins, their history, dosage preparation and injection techniques for a variety of dental related procedures. These include: TMJ pain and muscle spasms, bruxation therapy, lip and masseter muscle contour and treatment of associated migraines. Informed consent and the risks, benefits and alternatives (RBAs) will also be included in this course.

Andrew Blumenfeld, MD, is a neurologist and the director of the Headache Center of Southern California, located in San Diego. He is the Co-director of the Sleep Center of Southern California and a partner in the Research Center of So. Calif. in Oceanside.

Dr. Blumenfeld is chair of the American Headache Soc. Special Section: Peripheral nerve block and other interventional procedures for headaches and facial pain. He served as Chief of Neurology at Kaiser Permanente in San Diego and was the chairman of the bioethics committee. Dr. Blumenfeld has published and taught the use of Botox to health care providers including dentists nationally and internationally and has been treating patients with Botox since 1990.

Botox Therapy in Dental Practice Agenda for this meeting:

1. Introduction by John S. Bettinger, DDS, Immediate Past-president, The Dental Board of CA.
2. Introduction to botulinum toxins, where they come from, how they work, are they toxic?
3. Historic development for therapeutic uses of botulinum toxins, more than a cosmetic treatment.
Coffee Break
4. Botulinum toxins in migraine, a trigeminal nerve disorder.
5. Botulinum toxins in TMJ dysfunction: myogenic and trigeminal nerve modulation.
6. Botulinum toxins in shaping the lips and masseter muscles.

Lunch Break

7. Reconstitution of Botox vials, getting ready for injections, what you need to have.
8. Dilution and dosing.
Coffee Break
9. Informed consent and patient discussions about risks and benefits.
10. Injection sites for migraine, TMJ dysfunction and dental cosmesis

21ST CENTURY
MOUTH
REHABILITATION

“LAUNCHING DENTISTRY INTO THE 21ST CENTURY.”

This continuum track includes the following 6 workshops
which form our “Core Curriculum.”

MODERN DENTISTRY CONTINUUM

SAVE \$2000!

These series of workshops are designed to update the new graduate and the seasoned dentist with the most up-to-date techniques to provide patients with Minimally Invasive Supra-gingival Dentistry.

These techniques are not only more biocompatible, healthier and better for the patient, they are also more predictable and enjoyable for the dentist.

In order to properly serve our patients and thrive in practice in today's environment, the modern clinician must be skilled in multiple areas: diagnosis, patient motivation, restorative dentistry (direct and indirect), occlusion and simple implants.

This continuum track builds with each course taken and offers systems to implement all of the above skills. This will lead to a more prosperous and enjoyable professional life.

Total cost for
recent graduates
3 years \$9,850
(over \$5,000 savings)

All other graduates

THE LA INSTITUTE AND FORTUNE MANAGEMENT PRESENT

21ST CENTURY MOUTH REHABILITATION

THE **EVENT OF THE YEAR** FOR YOU AND YOUR TEAM

Every practice has 5% to 15% of patients who are missing multiple teeth and need a full mouth rehabilitation but cannot afford it, and we see them suffer and deteriorate feeling helpless. An even larger number of our patients would greatly benefit by opening their Vertical Dimension of Occlusion (VDO) to restore their worn-out dentition. They need help!

In this practical lecture Dr. Ruiz will offer a more real world approach to treating these patients using direct composite, adhesive dentistry and limited implants. Even partial mouth rehabilitation cases are like remodeling a beautiful building, meticulous designed and diagnosis must be done before

the first scoop of dirt is ever removed, (or before a handpiece touches the tooth).

This fast pace course will cover, techniques for full mouth composite restorations, Implant supported PRD using narrow and short implants and occlusal considerations, as well as research and many clinical cases.

Predictable Success with Porcelain Veneers, PJs & All Ceramic Crowns Using Supra-gingival Dentistry Principles

Easy, Predictable Porcelain Veneers, PJs & All Ceramic Crowns

3 Day Course • Live Patient Demonstration & Workshop • 21 CE Hours

Porcelain veneers when performed correctly can yield exquisitely beautiful results with minimal tooth preparation and no negative side effect; thus bringing great joy to both patients and clinician. However, if performed incorrectly, it can easily become a destructive, unpredictable and often unsuccessful procedure. This may be the reason why full crowns are more popular. Achieving consistent patient satisfaction requires more than good restorative principles, it also requires excellent communication with the patient, to understand their unique esthetic perspective and goals and then implement a system, to record this information and blend it with our own esthetic preferences and goals. It is also of great important to consider the longevity of our restorations, which always involves occlusal management.

It is thus evident that achieving great results with porcelain veneers and PJs require the thorough understanding of restorative principles, dental materials, smile design and occlusion. Dr. Ruiz will present his practical, logical and scientifically based approach to incorporating all of this important component in to an easy logical and highly predictable system which will virtually guarantee excellent results and patient satisfaction every time.

Schedule

April 25 - 27
Oct 24 - 26

Los Angeles, CA
Los Angeles, CA

Cost

\$2,490 or \$2,390 for early registration
(30 days prior to event)

Easy, Predictable Porcelain Onlays Full Crowns, etc. Using Supra-gingival Dentistry Principles

2 Day Workshop • 14 CE Hours

In this practical workshop, Dr. Ruiz will first demonstrate on a live patient, a new paradigm in preparation and cementation for porcelain onlays. Dr. Ruiz will show step-by-step how using "Supra-gingival Dentistry" techniques and understanding the specific characteristics of these new materials, dentistry can become easier and more predictable than ever. He will show step-by-step, the techniques and principles for tooth preparation, temporization, and sensitive-free easily bonded cementation.

During the workshop, participants will perform many tooth preparations specific to Supra-gingival dentistry for non-metal onlays, and full crowns in very realistic simulators, using the techniques and information learned. Participants will also bond porcelain onlays using the techniques learned.

Schedule

March 22-23
September 13-14

Los Angeles, CA
Los Angeles, CA

Cost

\$1990 or \$1,890 for early registration
(30 days prior to event).
Assistants \$450.

Practical, Predictable and Beautiful Direct Anterior and Posterior Composite Restorations

Including Full Mouth Composite Rehabilitation

3 Day Workshop • 21 CE Hours

Participants will receive over \$1,000 in materials and supplies!

Direct composite restorations is today's bread and butter dentistry, being efficient, predictable is a must for any practicing clinician. Additionally, direct composites provide functional, long lasting, and esthetically pleasing results, in the most conservative fashion. Many complain that direct anterior and posterior composites can be technique sensitive, difficult, time consuming and often financially unrewarding procedures; this may be due in large part due to the incorrect use of new materials. These materials require a completely new approach, if we are going to be successful with them. Dr. Ruiz will present a completely new, scientifically based, approach to preparing and placing highly esthetic, practical and predictable anterior and posterior direct composites, including full mouth composite rehabilitation. In this practical workshop you will use the newly learned techniques and perform many restorations on a realistic typodont.

Schedule

January 17-19

Los Angeles, CA

July 18-20

Los Angeles, CA

Cost

\$2,490 or \$2,390 for early registration
(30 days prior to event)

Advanced Occlusal Therapy Workshop

Using the Occlusal Disease Management System

3 Day Workshop • 21 CE Hours

Patients wish to keep their natural teeth their entire life. A great obstacle to this is "Occlusal Disease." Occlusal Disease (OD) is so prevalent and insidious, it is responsible for most restorative failures and is no less destructive and costly to the patient than decay or periodontal disease. Proper implementation, diagnosis and treatment of OD could be a great benefit to your patients, making dental work more relaxing, predictable and enjoyable

In this very practical workshop you will learn how to implement a methodic and incremental approach to diagnosis and treatment which can be easily performed in any practice and used on every single patient. During this workshop you will perform examinations to assess the seven signs and symptoms of Occlusal Disease, learn when and how to take Phase II occlusal analysis records, CR bites, mounted cast, etc. You will learn how to develop a restorative diagnosis implementing an occlusal strategy. You will also learn and perform additive and subtractive equilibration. This course also includes a system to educate patients about Occlusal Disease, leading to excellent treatment acceptance and added profits, while maintaining a highly ethical practice.

Schedule

February 21-23

Los Angeles, CA

September 5-7

Los Angeles, CA

Cost

\$2,490 or \$2,390 for early registration
(30 days prior to event). No assistants.

Restoring the Worn Dentition and Complex Cases: Applied Occlusion & Diagnosis

2 Day Workshop • 14 CE Hours

Completion of “Occlusal Disease Management Workshop” is a prerequisite.

Just like any beautiful building has to be designed and meticulous drawings made before the first scoop of dirt is ever removed, extensive mouth rehabilitation requires proper diagnosis and design before a headpiece is ever used. The key to predictability in results is great diagnosis with high-quality data and records, and a comprehensive and methodic approach. In this course Dr. Ruiz will share a simple and yet evidence based method and approach to complex diagnosis, building on the already acquired knowledge of smile design using the DFED system and the occlusal Disease Management System. In this course participants will perform 2 simulated full mouth rehabilitation cases, from diagnosis to temporization, to final restorations, and occlusal adjustment. One case with severe wear and VDO loss will require opening of the VDO, and one maintaining the same VDO.

Schedule

June 28-29 Los Angeles, CA
Dec 6-7 Los Angeles, CA

Cost

\$1,990 or \$1,890 for early registration
(30 days prior to event)

Evidence-Based Implementation of Simple & Practical Implant Dentistry

Using Short, Narrow, Platform and Mini Implants, for the General

Dentist

3 Day Workshop • 21 CE Hours

Patients today are no longer willing to have their teeth sanded down for fix bridges; implant dentistry is here to stay. The demand for implants is growing exponentially...it is the fastest growth area in dentistry. It is clear that implant dentistry is not the domain of specialists, the demand is too great. Similar to extracting teeth, GPs and restorative dentists should perform the majority of implant procedures and refer the difficult cases to the specialist.

In this practical workshop Dr. Ruiz will present the most logical system to select, place and restore simple implants in normal to narrow bone. These techniques can be implemented on Monday, and are in accordance with provisions placed by the 2010 Guidelines of the Academy of Osseointegration. Dr. Ruiz will also explain how to avoid unsatisfactory results. Placing and restoring implants in

Schedule

June 6-7 Los Angeles, CA
November 8-9 Los Angeles, CA

Cost

Team and Practice Building

Assistant Boot Camp

2 Day Workshop for Assistants and Dentists • 14 CE Hours
Faculty: Dr. Patricia Ryan-Martin

Experience shows that a motivated and qualified dental assistant is very valuable to any dental practice and can increase productivity and the enjoyment of dentistry. In this highly practical workshop, your assistant will be educated and motivated.

Schedule

January 11-12 Los Angeles, CA
August 16-17 Los Angeles, CA

Cost

\$690 or \$590 for early registration
(30 days prior to event)

Dento-Facial Photography and Treatment Presentation: A Team Driven Approach

1 Day Workshop • 7 CE hours
Faculty: Dr. Amir Esfandiari

This hands-on workshop will educate the participant on the key aspects of taking and using photographs to educate, motivate and treatment plan; the visual communication. The course will review the practical approach to dental digital photography and portrait photography. This course will include a proven technique for using photographs for treatment presentation and how to use photographs to communicate with everyone involved in patient's treatment, thus improving the quality of our care. This course is for the entire team and will help improve treatment acceptance using team-driven practical strategies.

Schedule

May 3 Los Angeles, CA

Cost

\$490 for Assistants and Dentists.

Specialty Courses

Transitional Bonding: Non-Traditional Composite Restorations for Major Occlusal and Esthetic Changes & Adding Incisal Length for Function and Esthetics

1 Day Workshop • 7 CE Hours
Faculty: Dr. Corky Willhite

Learn a practical technique using composite that offers many advantages over traditional composite or porcelain restorations. Patients—including those that need extensive changes for function and esthetics—love conservative treatment, whether for financial reasons or just because they don't want their teeth "drilled down." Requiring virtually no prep even for smile make-overs and full mouth rehabilitation cases, long-lasting results can be expected. And will help clinicians improve their Freehand Bonding skills.

Schedule

June 21 Los Angeles, CA

Cost

\$890 or \$790 for early registration
(30 days prior to event)

Founder and Director of the LA Institute of Clinical Dentistry

Dr. Ruiz is the Director of the Los Angeles Institute of Clinical Dentistry and Course Director of numerous CE Courses at University of Southern California (USC). He is Honorary Clinical Professor at Warwick University in England and member of the editorial board for Dentistry Today. He is also an Associate Instructor at Dr. Gordon Christensen PCC in Utah & independent evaluator of dental products for CR (CRA). Dr. Ruiz has been named as one of the "Top Clinicians in CE 2006-2012" by Dentistry Today.

Dr. Ruiz has published several research papers as well as many clinical articles on adhesive dentistry, occlusion and esthetic dentistry. He regularly lectures at all major dental meetings, nationally and internationally.

Dr. Ruiz has been practicing in the studio district of Los Angeles for over 20 years and enjoys a clientele of many stars and entertainers. His focus is on treating complex Cosmetic, Rehabilitation, and Implant cases.

Dr. Ruiz has made numerous television appearances highlighting his Esthetic Dental makeovers, including NBC Channel 4 News, ABC's News, Good Morning America & Vista La, VH1 and Channel 52's Telemundo and 34 Univision.

Patricia Ann Ryan-Martin, DDS

Dr. Ryan was previously Course Director of several restorative and operative Preclinical Courses and a full-time Assistant Professor of Clinical Dentistry at the University of Southern California. She received her Doctorate in Dentistry from USC and is currently a part-time volunteer and maintains a private practice in Fullerton, California.

Renee Kurtz, DMD

Dr. Kurtz was previously Course Director and a Clinical Instructor at the University of Southern California School of Dentistry. She received her Doctorate in Dentistry from Tufts University School of Dental Medicine. She is currently an Instructor at the University of Connecticut Dental School and maintains a private practice in CT.

Luis G. Vargas, DDS FAGD

Dr. Vargas graduated in 1984 and has been in practice over 25 years. He obtained the fellowship of the AGD in 1998. He has a general practice including, Orthodontics, Implants, and Laser Dentistry. He is a member of A.G.D, I.A.O and several other organizations. He's been in private practice since 1994 in San Bernardino, California.

Amir Esfandiari

Dr. Esfandiari received his DDS degree from the University of Southern California and continued his education at the Dawson Center, Continuum on Esthetic at USC. Currently, he is a Faculty-clinical associate professor at USC School of Dentistry. He is the president of OC Center for Advanced Cosmetic Dentistry, the Chair of Emergency care panel for OC Dental Society and on the peer review committee for California Dental Association. Dr. Esfandiari lectures throughout the world and has published numerous articles.

Corky Willhite, DDS

Dr. Willhite has achieved Fellowship by the Academy of General Dentistry and the American College of Dentists. He is an Accredited member and Fellow in the American Academy of Cosmetic Dentistry and spent years as an Examiner for Accreditation. His private practice in suburban New Orleans, The Smile Design Center, is limited to Cosmetic Dentistry.

Dr. Steven Lynch, DDS

Dr. Lynch received his dental education at UCLA. Rather than enter private practice immediately, Dr. Lynch completed an additional year of training in a Hospital General Practice Residency, also at UCLA. He has been practicing dentistry in Vacaville, CA since 1983. In addition, he lectures internationally on a variety of dental subjects including orthodontics.

Dr. Ron Kaminer

Dr Ron Kaminer is a 1980 graduate from SUNY at Buffalo School of Dental Medicine. Dr Kaminer is an international expert in the field of dental lasers and has lectured on lasers and minimally invasive dentistry both nationally and internationally. He is the Director of the Masters of Laser training program in New York and is a clinical instructor with the International College of Laser Education. Dr. Kaminer maintains a teaching appointment at Peninsula General Hospital in Far Rockaway , NY. He sits on the advisory boards and is a clinical consultant for numerous dental manufacturers. He has authored numerous articles on dental lasers and minimally invasive dentistry and is an associate editor for Dental Product Shopper.

High-tech Minimally Invasive Dentistry: A journey through all the specialties

All dental specialties are changing to become more minimally invasive. These minimally invasive techniques can immediately impact anyone's practice leading to improved quality of care and higher profits. We will demystify all aspects of esthetic dentistry, utilizing both new and tried and true materials. We will deliver concepts that can all be implemented immediately in the office.

Some of the topics to be covered include:

- Cariology - Finally a true understanding of Dental disease
- Predictable early caries diagnosis
- The best restorative materials for minimally invasive preparations
- Ideal matrix band for perfect contacts
- Oral Cancer detection, How and Why?
- How to predictably eliminate white spots
- High-tech Minimally Invasive Periodontics- maximizing hygiene production
- Predictable soft tissue management
- Dental Lasers in Perio-separating truth from hype, which lasers work best
- Current concepts in tooth whitening
- Communication skills to maximize case acceptance
- and much, much more.....

This program will change the way you practice forever. How do I know? Look at some of the comments from past attendees...

"Wonderful, cutting edge Presentation"
"Very good—can use info immediately"
"The most useful presentation of the day"

SAFE

AAFE Advantage

FrontlineTMJ and Facial Pain Therapy

Live Patient Two Day Course

Many of your friends, family, and patients suffer from some form of headaches, migraines, stress, occlusion, and TMJ. This course is the missing link that will teach you how to comprehensively evaluate, diagnose, and treat those who suffer from TMJ syndrome and myofascial pain.

Upcoming Course Dates

- Nov 8-9 San Francisco
- Dec 6-7 Atlanta (with GDA)
- Jan 17-18 Los Angeles
- Jan 24-25 Chicago
- Feb 14-15 Columbus, OH

Course Highlights

- How to quickly identify and diagnose facial pain patients in your practice
- Learn why you should not spend a dollar on expensive equipment for facial pain diagnosis and treatment
- Learn the two most important free tools used to diagnose myofascial pain
- No more "occlusion confusion" when it comes to TMJ treatment
- Learn on live patients how to precisely identify and inject trigger points for instant and long term pain relief
- Understand when to use different chemotherapeutics for best short-term and long-term therapeutic outcomes
- Learn when to treat and when to refer myofascial pain patients what you must do and what you must not do for facial pain patients
- When bruxism appliances are essential and when they are detrimental
- One on one comprehensive mentored instruction as you work your patient
- Full Botox pain therapeutic and esthetic training on day 2

SPECIAL BONUS OFFER: Lunch, Learn, and Earn!

Receive an additional 1.5 Participation CE Credits
Cutting-Edge Advances in General Dentistry. *OFFER BEGINS DEC 1ST, 2012

"I have been a dentist for over 35 years. I can honestly say this is the most rewarding thing I have ever done. Thank you for giving me the training to allow me to provide such a profound effect on another person."

Terms & Conditions

Model Patients: It is recommended that each participant brings a model patient to treat and will need to purchase one vial of Botox[®] and one syringe of dermal filler material for the appropriate course from the course sponsors. Additional vials and syringes will be available for purchase at the course if participants would like additional practice.

Cancellation Policy: Fully refundable no later than 5pm same date one month before course minus \$775 handling fee. No refunds after same date one month before course. We reserve the right to cancel a course and cannot be responsible for hotel deposits or non-refundable airline tickets or any other associated fees. We take no responsibility regarding state board requirements. Participants are responsible for determining whether they are able to perform these procedures. Please refer to our website for complete policies.

California: CA dentists can now place Botox/Dermal Fillers as defined by the CA B. & P. Code section 1625. The American Academy of Facial Esthetics is a CE register provider #5032 by the Dental Board of California.
