COURSE TOPICS

Restoratives Update (Lecture): It is estimated that more than 80% of restorative failures are due to clinical error. This lecture course provides an overview of the restorative options and a comprehensive discussion of the ever-changing world of dental adhesives, guiding you through the collection of materials and techniques available for both direct and indirect restorations, including: The options available in adhesive systems including the new advancements in Glass Ionomers ♦ Eliminating the frustration of post-operative sensitivity and restorative failure ♦ The materials and techniques for Class I, II & V restorations ♦ Techniques and materials for repairing porcelain fractures ♦ Achieving predictable esthetic results with anterior implants ♦ Techniques for the preparation, impressions, temporization, lab communication, material selection and cementation of indirect restorations.

Hands-on Pediatric Restorations: Today's parents demand the best restorations of their children and teen's teeth for function and esthetics. Discussions will include: Glass ionomers, resinomers, composites, and various types of crowns ♦ Esthetic facings for stainless steel crowns and chairside/laboratory steps ♦ Esthetic space maintainers and their easy fabrication ♦ Enamel microabrasion, direct-bonded and porcelain veneers for teenage patients. **Hands-on will include:** Class I and II primary molar prep ♦ Class I and II primary molar restoration ♦ Pulpotomy prep and use of dentin replacement materials ♦ Stainless steel crown preparation ♦ NuSmile crown preparation- molar

Sleep Medicine (2-Day Hands-On Course): **Dec. 8 Topics include:** Introduction to sleep - sleep stages, disorders ♦ Prevalence - why is there a need for treatment? ♦ Sleep apnea signs/symptoms/clinical issues ♦ Treating snoring and sleep apnea in a dental office - protocol review ♦ Patient education; addressing key issues and getting a snoring patient to convert to a sleep apnea treatment case ♦ Prepare Embletta X100 home sleep study for course attendee(s) **Dec. 15 Topics include:** Download previous week's Embletta X100 study, review study data and sleep report with class ♦ Hands on with Pharyngometer / Rhinometer ♦ Working with popular oral appliances like the TAP, Respire, EMA and more! ♦ Appliance review - pro's and con's of all of the major sleep appliances ♦ Medicare and Dental Sleep Medicine. What's it all about and how can this be a benefit to my practice? ♦ Medical insurance billing "From A to Pay" with a review of the latest codes, fees, procedures and recommendations, covering protocols for both private pay medical insurance and Medicare.

Minimally Invasive Restorative Dentistry: “The Plaque Monologues”

8 CE Units

Sunday, December 8, 2013 8am to 5pm

Registration 7:00 am to 8 am

Embassy Suites Hotel-Anaheim South

11767 Harbor Blvd., Garden Grove, California 92840 Phone: 714- 539-3300

Brian B. Novy, DDS

Dr. Novy is an expert on oral biology and restorative materials. He has lectured and taught nationally and internationally to dental audiences on restorative materials and operative dentistry. He has been in private practices in Valencia and Redlands, CA and directs a non-profit clinic for the homeless. His research involves saliva, and he is involved in organized dentistry, locally, nationally and globally. Brian’s lectures are educational, practical and immediately useful, as well as entertaining.

The entire dental office team should attend this program.

At the end of this course participants should be able to:

- Identify risk factors and proper interventions for high caries risk patients
- Determination of appropriate anti-caries treatment
- Select appropriate restorative materials based upon caries risk
- Control rampant caries with focused therapeutics
- Understand how to intervene medically in the caries process
- Interpret results from salivary diagnostics
- Prolong the life of restorations in all patients

Dr. Novy’s presentation is sponsored by GC America, Air Techniques & CariFree

The Exciting World of General Dentistry

Minimally Invasive Restorative Dentistry “The Plaque Monologues”

Brian Novy, DDS is Back by Numerous Requests
Sunday, December 8, 2013

More Information Is On The Other Side Of This Page

The science of dental caries is expanding at an astonishing rate, and the new technology available to find and reverse these lesions is fascinating. If you don't know how to use qualitative laser fluorescence, electrical impedance, monoclonal antibody tests, biofilm ATP analysis and salivary diagnostics, you're already behind the times. Don't let your practice become the only dental office saying, "Brush better, don't eat sweets, and here's some florde." Has that traditional suggestion worked well for your patients?

All Credit Card Information is Safe and Secure with the SCAGD

To confirm your registration contact Drrobertgarfield@aol.com or 310-471-4916. The SCAGD Annual Meeting Election of Officers & Directors will be held on this day. Nominations from the floor are acceptable. Please notify Dr. Garfield by Nov. 9.

President's Message

The secret to success in any profession is investing in yourself and learning new skills to expand your practice. Having been involved in private practice and as a clinical educator for nearly 35 years, there has never been a more exciting time and more opportunity for every practice.

The fastest growing areas of dentistry are new and effective TMJ/myofascial pain treatments and Botox and dermal fillers for esthetic and therapeutic uses. The American Academy of Facial Esthetics (AAFE), with its over 7000 members, is the leader in facial pain and dental and facial esthetics live patient training and has trained more dental and medical professionals than any other educational institution in the world.

Professionals choose AAFE courses because the outstanding training is equal to and most often exceeds the education taught in academic communities and medical and dental residencies. One of the many reasons the AAFE is so special is our world renowned faculty, who are all practicing clinicians, offer post course support to our members through online forums and have created the most supportive and positive online community in dentistry and medicine. We are here to help you expand your practice and change your patient's lives forever.

Kindest regards,

A handwritten signature in black ink, appearing to read "L. Malcmacher".

About Us

HOW ARE WE DIFFERENT?

The American Academy of Facial Esthetics (AAFE) is the premier live patient training organization for Botox and dermal fillers for dental esthetic and pain therapeutic uses in the oral and maxillofacial areas. The AAFE provides the most comprehensive training to achieve the best esthetic and therapeutic outcomes within the scope of state dental practice acts. Our outstanding post-course support will ensure successful procedure integration into your practice and is only available through the AAFE.

EARN UP TO 24 PARTICIPATION CE CREDITS!

CE credit provided by Common Sense Dentistry which is designated as an approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by the AGD for fellowship, mastership, and membership maintenance credit. Attendance in any of the courses in this brochure will provide 8 hours of participation credits per day and 24 hours total for all three days.

Frontline TMJ, Headache, and Facial Pain Therapy

ONE ON ONE MENTORED LIVE PATIENT TRAINING COURSE

Many of your friends, family, and patients suffer from some form of headaches, migraines, stress, occlusion, and TMJ. This course is the missing link that will teach you how to comprehensively and systematically evaluate, diagnose, and treat those who suffer from TMJ syndrome, headaches, and myofascial pain.

Upcoming Course Dates

NOV 7 / SAN FRANCISCO

NOV 14 / SAN DIEGO

DEC 5 / ATLANTA W/ GDA (LEVELS I, II)

DEC 12 / FT. LAUDERDALE

DEC 12 / NEW YORK CITY

JAN 16 / CHICAGO

JAN 16 / NEW ORLEANS

JAN 30 / NEW JERSEY

FEB 6 / LOS ANGELES

FEB 13 / COLUMBUS

FEB 27 / SEATTLE

COURSE HIGHLIGHTS

- How to quickly identify and diagnose headache and facial pain patients in your practice
- Learn why you should not initially spend a dollar on expensive equipment for facial pain diagnosis and treatment
- Understand the anatomy and pain pathways that will immediately give you the best patient outcomes
- No more "occlusion confusion" when it comes to TMJ treatment
- Learn on live patients how to precisely identify and inject trigger points for instant and long term pain relief
- Learn when to treat and when to refer myofascial pain patients
- Understand the use of chemotherapeutics such as ethyl chloride, lidocaine and Botox for simple and effective pain management and differential diagnosis
- Change your patient's lives with a systematic and effective protocol for treating myofascial pain
- This course is most often taken together with Botox training. Most participants attend all 3 days together.

Botulinum Toxin (Botox®) Training for Every Practice

THE BEST COMPREHENSIVE LIVE PATIENT TRAINING AVAILABLE

The use of Botox in dentistry has been around for over 20 years in the treatment of TMD and myofascial pain and is well known for its esthetic uses in the oral and maxillofacial areas. Nearly everyone knows the benefits of Botox – it is about time your office offers these highly desired patient services – your office team will want them too! The course objective is to enable dental professionals to offer practical concepts, techniques and new dental services, and be proficient with the materials, techniques, and instrumentation of Botox treatment.

Upcoming Course Dates

NOV 8 / SAN FRANCISCO

NOV 15 / SAN DIEGO

DEC 6 / ATLANTA W/ GDA (LEVELS I, II, III)

COURSE HIGHLIGHTS

- In depth instruction of anatomy, neurophysiology and musculature of the oral and maxillofacial areas for the best patient outcomes
- Learn the physiology and pharmacology of oral and maxillofacial injectable treatment
- Detailed patient evaluation for the best esthetic and therapeutic treatment possible
- Live patient hands-on training including diagnosis, treatment planning, and proper dosing and delivery of botulinum neurotoxin
- Learn the AAFE protocols and treatment techniques including anatomical muscle sites, muscle depths, proper preparation and dilution for the best oral and maxillofacial esthetic outcomes
- Proper fee structures for Botox treatment
- All the customizable office forms and informed consent needed to begin treating patients immediately
- One on one comprehensive mentored instruction as you treat your patients
- This course is most often taken together with the Frontline TMJ/Facial Pain course and the dermal filler course

Dermal Filler Training for Every Practice

THE BEST COMPREHENSIVE LIVE PATIENT TRAINING AVAILABLE

Dermal fillers are used to correct soft tissue volume deficiencies in the oral and peri-oral areas and are now considered essential to every anterior dentistry case. A great looking smile involves the teeth and all the surrounding soft tissue which can be volumized with dermal fillers. The course objective is to enable dental professionals to offer practical concepts, techniques and new dental services, and be proficient with the materials, techniques, and instrumentation of dermal filler treatment.

Upcoming Course Dates

FEB 8 / LOS ANGELES (LEVELS I, II, III)

FEB 15 / COLUMBUS (LEVELS I, II)

MAR 1 / SEATTLE

COURSE HIGHLIGHTS

- Volumizing the midface and lower face using AAFE specific protocols for a more esthetic and youthful appearance
- Treat lower face folds to create and support proper lip and smile lines
- Beautiful lip enhancements as part of every esthetic dental case
- Learn how to treat deficient lip and peri-oral volume for therapeutic cases such as angular cheilitis
- Detailed patient evaluation for best dento-facial esthetic outcomes
- Live patient hands-on training including diagnosis, treatment planning, and proper dosing and delivery of dermal fillers
- Proper fee structures for dermal filler treatment
- One on one comprehensive mentored instruction as you treat your patients
- This course is usually taken together with the Botox course on the previous page with most attendees taking all 3 course days together.

Testimonials

"As dentists, it's time to educate our patients on the shape of their lips and the fine lines around the perioral area of the mouth. The use of fillers and botox in a minimally invasive way can completely WOW a Smile!"

- Dr. Monique Mabry

"I'm so glad to have attended this course! In just one day of learning I feel as if I can confidently and competently treat the many TMJ and facial pain sufferers in my practice. It's exciting to know that without a doubt, I can bring them relief from their pain. Let me at 'em!"

-Dr. Kelly Elward

"The course is one of the most user-friendly, fun, relevant, hands-on courses I've been to in 30+ years of dentistry. It gives a new lease on life to your dental career!"

-Dr. Richard L. Lepard

Member Accreditation

WHO WE ARE

We are members of The American Academy of Facial Esthetics — dedicated to providing the most advanced non-surgical minimally invasive techniques for beautiful total facial esthetics, frontline TMJ and myofascial pain therapy.

LEVELS OF ACCREDITATION

- ≡ General Member
- ≡ Associate Member
- ≡ Accredited Member
- ≡ Fellowship
- ≡ Mastership
- ≡ Diplomate

Stand Out among your colleagues by demonstrating your dedication and expertise in the field of minimally invasive total facial esthetics.

Accreditation awards are based on exceptional initiative, leadership, progress and service.

Accredited members achieve recognition as emerging leaders in the field of facial esthetics and therapeutics. These professionals have the knowledge and expertise to transform their practice using the most advanced techniques. AAFE accredited members have unique opportunities for mentorship within the organization.

The screenshot shows a newsletter titled "Spotlight On Success" with the subtitle "What's your AAFE status?". It features a "2013 MEMBER" badge. The main article is titled "HONORS" and is a bio for Dr. Scott Frey, DDS, who is a Fellow of the World Congress of Minimally Invasive Dentistry. The bio includes a quote from Dr. Frey: "I feel incredibly blessed to be able to work in a field that can make such a dramatic impact on people's quality of life." Below the bio is a small portrait of Dr. Frey and a question: "As an Emerging Esthetics Leader, what advice do you have for first time AAFE attendees?".
