**\*(Scalpel-free, Suture-free, Graft-free)**

Dr. John Chao,  
the inventor of  
The Chao Pinhole®  
Surgical Technique

- ✓ **33 month study**
- ✓ **43 consecutive patients (16 men, 27 women)**
- ✓ **121 teeth treated**

Visit [PinholeAcademy.com](http://PinholeAcademy.com) to view the 33 month study on The Pinhole® Surgical Technique as published in The International Journal of Periodontics & Restorative Dentistry\*

**\*Conclusion on page 530:** "PST may be deemed a **predictable, effective, minimally invasive, and time and cost effective** alternative to FCTG techniques for obtaining optimal patient based outcomes."

**Over 550 doctors have been trained world wide in PST!**

**\*The Scalpel-free, Suture-free, Conventional graft-free method is the only method taught at the PST® Seminar.**

COURSE SERIES  
SPONSORED BY:

## COURSE TOPICS

**OSHA, Infection Control and CA DPA:** This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, the California Dental Practice Act and Infection Control.

**Esthetic Composites and World Class Crown & Bridge:** *Improve your direct and indirect restorations with these gems, including:* Step-by-step techniques to create lifelike and morphologically precise direct composite restorations ♦ The use of composite tints to create characterized restorations that rival those produced in the laboratory ♦ A review of indirect restorative materials and options in dental ceramics ♦ A review of prep design and tissue management for perfect impressions ♦ Provisionalization for full coverage and veneers ♦ No prep veneers: A realistic option? ♦ Prosthetic tooth repositioning and "orthodontic" tooth preparation ♦ Minor tooth movement with Essix appliances ♦ Computerized shade matching ♦ Digital impression making ♦ Cementation protocols for provisional cementation ♦ Cementation protocols for total etch and conventional cements: Which materials for which cemen ♦ Occlusal adjustment during the cementation process

**Pedo and Treating Trauma:** *This course will explore the additional skills needed to provide dental care to the pediatric patient including tried and true procedures as outlined below:* Effective use of stainless steel crowns ♦ Necessary and effective pulp therapy ♦ Benefits of bilateral and unilateral space maintainers ♦ How to successfully take an impression ♦ How to diagnose and provide treatment plans ♦ Determine appropriate X-Ray's for young patients ♦ Appropriate use of fluoride ♦ Current options for repairing anterior primary teeth ♦ Understanding of the healing process for trauma and a Step-by step evaluation approach ♦ Logical evaluation form that reviews extra and intra-oral soft tissues /facial and dental bones /periodontia and tooth structures ♦ Pre-packaged trauma supply list and a listing of the necessary radiographs, clinical tests, specialists referral list and at timetable for follow-up treatment

**Endo for GPs:** *This course provides techniques, tips, and tricks to increase endodontic confidence and mastery, including:* Endodontic diagnosis and pulpal testing, case selection, and anesthetic associated with a "hot" tooth ♦ Irrigation protocols during negotiation, instrumentation, and prior to obturation ♦ Discuss in detail access, coronal negotiation, coronal flare, negotiation to working length, obtaining an accurate working length, and an open glide path ♦ Nickel-Titanium rotary and reciprocation files ♦ Sealer and obturation of the root canal system ♦ Post-op instructions and pain management

**Hands-on Composite Restoration (an additional fee is required for this course):** *This program covers the basics to advanced concepts and techniques in composite placement. Time will be allotted to interact with Dr. Hakim and trouble-shoot the resin dentistry challenges attendees encounter daily. Topics include:* Bonding/adhesive review and composite selection ♦ Trouble shooting sensitivity ♦ Anterior vs. posterior and minimally invasive strategies ♦ 3-D color development and shade selection ♦ Layering vs. bulk fill ♦ Contacts and contour ♦ Optimal armamentarium (curing lights, burs for both prep and finish, matrices, placement instruments and gadgetry to increase speed and efficiency) **Hands-On Will Include:** Building an anterior tooth, that replicates nature, through a layering technique ♦ Restore a class II restoration with ideal proximal contact and occlusal contour.
