

PINHOLE SURGICAL TECHNIQUE

Super-Charge Your Practice With
Chao PINHOLE® SURGICAL TECHNIQUE (PST®)
Minimally Invasive Procedure for Root Coverage
**Scalpel-free, Suture-free, Graft-free*

(1) Joyce: **Before** PST, full lower arch, May 2009.

(2) **After** completion of PST on full lower arch. This photo-May 2014, 5 years later.

****(Scalpel-free, Suture-free, Graft-free)***

Dr. John Chao,
the inventor of
The Chao Pinhole®
Surgical Technique

- ✓ **33 month study**
- ✓ **43 consecutive patients (16 men, 27 women)**
- ✓ **121 teeth treated**

Visit PinholeAcademy.com to view the 33 month study on The Pinhole® Surgical Technique as published in The International Journal of Periodontics & Restorative Dentistry*

***Conclusion on page 530:** "PST may be deemed a **predictable, effective, minimally invasive, and time and cost effective** alternative to FCTG techniques for obtaining optimal patient based outcomes."

Over 550 doctors have been trained world wide in PST!

****The Scalpel-free, Suture-free, Conventional graft-free method is the only method taught at the PST® Seminar.***

The logo features the word "DENTIMAX" in a bold, black, sans-serif font, centered within a yellow oval. This oval is surrounded by a thick, yellow rope border that forms a rectangular shape with rounded corners. The rope has a detailed braided texture and is set against a solid brown background. At the top center of the rope border, there is a small knot or loop.

The logo consists of a thick, dark brown background. A yellow rope with a black outline is coiled into a rectangular shape with rounded corners, framing a central yellow oval. The text "XCEL SEMINARS" is written in a bold, black, sans-serif font across the center of the oval. The rope has frayed ends at the top and bottom, suggesting it is a lasso or a similar tool.

XCEL SEMINARS

7th Annual Comprehensive Dental Skills Series

Knott's Berry Farm Resort Hotel

Nov. 23, 2014: Hands-on Composite Restorations: Esthetic, Versatile, Simple & Cost Effective

Dr. Sam Halabo is a published author, was a faculty member at UC San Diego, is a clinical member of the Continuum for Innovative Dentistry, has been involved in product evaluations for many years and is extremely proud and honored to share his knowledge and experience with those seeking to provide excellent dental care for their patients.

Dec. 14: Secrets of Pediatric Dentistry—What You Weren't Taught in Dental School!

Dr. David Rothman is a Diplomate of the American Board of Pediatric Dentistry, has completed an Anesthesiology Residency, lectures extensively and has been published in the Journal of the American Dental Association.

Feb. 1, 2015: Clinical Endodontics for GPs

Dr. Reid Pullen was a general dentist in the Army before becoming an Endodontist and is uniquely suited to teach GPs about Endodontic care.

March 1: Achieving Long-term Composite Success

Dr. Lou Graham, is back by popular demand for another great topic! He is an expert in conservative dentistry and an exceptionally educational and entertaining speaker.

COURSE TOPICS

Hands-on Composite Restorations (An additional fee is required for this course, if purchased independently from the package): *Learn how to do life-like composite restorations efficiently and cost effectively while using versatile materials and minimal inventory, including:* Produce composite fillings that are esthetic and fast ♦ minimize inventory by managing the materials used ♦ Using materials that have solid studies backing them ♦ Decrease post-operative sensitivity. ♦ Appropriate materials for high caries-risk patients. ♦ Tips on improving the quality, speed and beauty of your daily procedure. ♦ Managing polymerization shrinkage stress. **Hands on will include:** Proper bonding techniques for latest generation materials ♦ A step-by-step class II restoration, including predictable, reliable interproximal contacts ♦ Complete a class V restoration in a quick and efficient manner ♦ Selecting & placing the proper restorative material for any situation

Pediatric Dentistry for GP's: *Are you overwhelmed with angst when you know children will be coming to your office? The presentation will address topics such as behavior management, anesthesia, sealants, esthetic restorative dentistry, pulp therapy and space maintenance generally without use of high tech and expensive gadgets. It will also include a segment on medical emergencies. Objectives include:* Understand and utilize esthetic and resin based materials in restorative techniques ♦ Treatment plan and utilize appropriate dental materials for maintenance of a devitalized primary tooth and immature permanent tooth ♦ Understand the importance and options for space maintenance in the primary and mixed dentition ♦ Identify medical and sedation emergencies in children ♦ Develop an appropriate emergency kit and emergency protocol ♦ Identify risk factors for pediatric patients based upon their unique anatomy, physiology and childhood diseases

Endo for GPs: *This course provides techniques, tips, and tricks to increase endodontic confidence and mastery, including:* Endodontic diagnosis and pulpal testing, case selection, and anesthetic associated with a "hot" tooth ♦ Irrigation protocols during negotiation, instrumentation, and prior to obturation ♦ Discuss in detail access, coronal negotiation, coronal flare, negotiation to working length, obtaining an accurate working length, and an open glide path ♦ Nickel-Titanium rotary and reciprocation files ♦ Sealer and obturation of the root canal system ♦ Post-op instructions and pain management

Achieving Composite Success: *This course will review the very latest products and techniques that truly will allow you to take a refreshed look at composite procedures and ensure your long term success, including:* Understanding and solving the top three reasons why sensitivity does occur and how easy they are to resolve ♦ How lights, glass ionomers and composites all fit together to ensure long lasting asymptomatic restorations ♦ The very latest in caries removal, single tooth anesthesia, low shrink/stress composites and how these will all change your approach to composites ♦ Case-by-case examples of Class I, II, IV, V, composites and the very latest on sealants ♦ Anterior combination casework that combines direct and indirect approaches with lab communication tools, all with the philosophy of "Conservative Dentistry"

**SOUTHERN CALIFORNIA
ACADEMY OF GENERAL DENTISTRY**

Southern California Academy of General Dentistry

Oral Surgery For General Dentists

Sunday, December 7, 2014 8am to 5pm 8 CE Units

Registration 7:00 am to 8 am

Instructor: Lawrence Gaum, DDS, Toronto, Canada

Embassy Suites Hotel-Anaheim South

11767 Harbor Blvd., Garden Grove, California 92840

An instructional syllabus will be given to all attendees

Lawrence Gaum is an oral-maxillofacial surgeon in private practice in Toronto, Canada. He was an instructor at the University of Toronto for 20 years and has authored many articles and books on oral surgery and related treatments. All dentists and chairside operating assistants should attend this program. **We advise all attendees to bring sweaters and jackets due to individual needs concerning the temperature of the meeting room.**

You will be taught how to perform the following:

A Proper Examination, Surgical Removal of Maxillary & Mandibular Impacted 3rd Molars, Erupted 3rd Molars and Retained Roots, Surgical Removal of Cysts, Soft and Bony Tissues & Hyperplastic Tissue, Surgical Removal of Soft-Tissue Tumors & Fibromas, Surgical Removal of Torus Palatinus & Torus Mandibularis, Surgical Exposure of Impacted Canines for Pre-Orthodontic Treatment, Frenectomies, Lingual Frenectomies (ankyloglossia), Incision & Drainage of Abscesses, The ART Mandibular Block Technique, Post - Operative treatment, Dry Sockets and Useful Medications. *After taking this course most general dentists will have the confidence and skill to perform all of the surgical techniques taught in this seminar. THESE PROCEDURES HAVE THE POTENTIAL TO SIGNIFICANTLY INCREASE YOUR OFFICE INCOME.*
