

The logo consists of a thick, dark brown background. A yellow rope with a black outline is coiled into a rectangular shape with rounded corners, framing the central text. Inside this rope border is a yellow oval with a white outline. The text "XCEL SEMINARS" is centered within the oval in a bold, black, sans-serif font. The word "XCEL" is on the left and "SEMINARS" is on the right, with a space between them.

**Two Locations:**

Friday, Nov. 5 in San Francisco & Sunday, Nov. 7 in San Jose

SERIES SPONSORED BY:

Approved PACE Program Provider FAGD/MAGD Credit Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. (10/01/08) to (09/30/2011)

## Course Topics

**Restoring Implants:** This program will discuss the evolution of restoring implants over the last 20 years, including: Mandibular overdentures on 2 implants and Mandibular/Maxillary bar overdentures  
 ♦ Locator attachments ♦ Fixed/Detachable dentures ♦ Mini Implants ♦ Selecting alloys for implant restorations ♦ “All-on-4” concepts ♦ Pre-treatment considerations for proper treatment outcomes ♦ Treatment planning for crowns and bridges ♦ Cases from single tooth implant restorations to full mouth reconstructions utilizing implants.

**Infection Control and CA DPA:** This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen Training, the California Dental Practice Act and Infection Control.

**Esthetic and Minimally Invasive Dentistry:** This course will discuss skills required to perform complex direct restorations, creating highly accurate natural looking restorations with a high degree of esthetic appeal. Topics include: Expanded use of composite materials ♦ Creating three dimensional restorations ♦ Confidently treating difficult class IV, diastema, and composite veneer restorations ♦ Learning a predictable method to finish and polish composites

**Adding Ortho to Your Current Practice:** This course will explain how you can treat non-complex ortho cases, including: an intro to the straight wire system ♦ The role of functional appliances and Invisalign in patient treatment ♦ A description of a complete system to become familiar with orthodontics ♦ A hands-on exercise on placing brackets

**Hands-On Cosmetic Restorations: (An additional fee is required for this course)** Essential principles of esthetic restorations, including techniques for setting up the arch form of a crowded, anterior veneer case and step-by step preparation, temporization and contouring techniques
