

The logo consists of a thick, dark brown background. A yellow rope with a black outline is coiled into a rectangular shape with rounded corners, framing the central text. Inside this rope border is a yellow oval with a white outline. The text "XCEL SEMINARS" is centered within the oval in a bold, black, sans-serif font. The word "XCEL" is on the left and "SEMINARS" is on the right, with a space between them.

XCEL SEMINARS

4TH ANNUAL COMPREHENSIVE SKILLS SERIES

OCT. 16, 2011: THE ULTIMATE MATERIALS COURSE- ADHESIVES, COMPOSITES, LASERS AND MORE (INCLUDES A LIVE LASER DEMO)

Dr. George Freedman is Past President of the American Academy of Cosmetic Dentistry and a columnist on the latest dental materials for Dentistry Today Magazine.

NOV. 13, 2011: DENTURES AND IMPLANTS IN TODAY'S PRACTICE

Dr. Joe Massad is a Prosthodontics expert with 500+ lectures delivered.

DEC. 11, 2011: ENDO'S LATEST TREATMENT OPTIONS & MATERIALS

Dr. Robert Salehrabi is Associate Professor of Clinical Endodontics at USC & recipient of the International Endodontic Federation Research Award

FEB. 5, 2012: PEDIATRIC DENTISTRY FOR GP'S

Dr. Carla Cohn lectures internationally on risk assessment, prevention, behavior management and restorative treatment options for children.

MARCH 4, 2012: THE ESTHETICS OF IMPLANTS

Dr. Paresh Shah is an Executive Board Member of the Canadian Academy for Esthetic Dentistry and specializes in implants, esthetics and complex restorative treatments.

CROWNE PLAZA SAN JOSE/SILICON VALLEY

777 Bellew Drive, Milpitas CA

(Minutes from the 880, 680, 101 & 237 Fwys)

All Courses are on Sundays 8AM - 4PM & 7CA CEs each

**5 COURSE SERIES (35 CA & AGD CEs)
FOR ONLY \$515 OR \$169 EACH**

**HANDS ON COURSE
ONLY \$199
FOR SERIES MEMBERS
(7CEs)**

DECEMBER 18, 2011: COSMETIC & MINIMALLY INVASIVE DENTISTRY

Lou Graham, DDS: Expert in "conservative dentistry," uses interactive formats and relevant cases to make this a don't miss hands-on course!

COURSE SERIES SPONSORED BY:

COURSE TOPICS

The Ultimate Materials Course: This seminar will cover the latest dental techniques and materials, including: how dental sensitivity can be totally eliminated and prevented, 7th and 5th generation adhesive materials, innovations in composites and matrix systems, and single step etch, bond and desensitization ♦ Minimally-invasive Fissurotomy burs – an anesthetic-free approach to caries restoration and repair ♦ Indirect procedures are simplified by easier to use, impression materials and one-step resin cements ♦ One-step post cementation and core build-up techniques ♦ Innovative carbide crown and bridge preparation (GW Ultra) with constant torque high speed electric handpieces. ♦ Predictable digital shade matching ♦ Photo-Activated Disinfection technology offers caries control and remineralization ♦ Soft tissue lasers (demonstrated on hot dogs)

Dentures and Implants: This presentation will cover the most important aspects of partials, complete removable dentures and implant retained over-dentures, detailing helpful tips to eliminate problems and obtain predictable fit and esthetics, including: The most important aspects for successful complete, partial, immediate and implant retained over-dentures ♦ Techniques for accurate jaw registrations, reline and denture impressions ♦ Direct implant pickup and accurate jaw relations ♦ Stud vs. Bar-type implant attachments and the elimination of partial and denture adjustments

Endo Update: This seminar will discuss the latest practical information regarding endodontic diagnosis and treatment, including: What is affecting treatment outcomes? ♦ Diagnosis and treatment planning ♦ Rational, evidence-based case selection ♦ Endo-perio interrelationship ♦ Procedural errors and their prevention ♦ Dentine replacement materials and its many applications in complex cases ♦ Restoring endodontically treated teeth with bonded core composites ♦ Diagnosis of cracked teeth & treatment options ♦ Endodontic retreatment vs. implants—when, where & how to decide

Pediatric Dentistry for GP's: Dr. Cohn shares her daily practices, instruction on behavior management, restorative options, many of the “everyday questions” that parents ask, the latest trends in decay management, and a plethora of preventative strategies and restorative techniques applicable to GPs. Attendees will learn how to: complete an examination for infant, toddler and school aged children and effectively manage kid’s and parental behavior ♦ recognize the stages of dental disease ♦ use a risk assessment tool ♦ prevent caries from progressing ♦ provide different restorative options

The Esthetics of Implants: Implant, abutment and final restoration selection all play a vital role to the success of implant treatment. The seminar covers proper impressioning techniques, lab communication, abutment selection, provisionalization, tissue management and prosthetic design ♦ Learn easy techniques to implement in your practice.

Hands-On Cosmetic and Conservative Restorations: (An additional fee is required for this course) This course will discuss choices for successful restorative care and lets you practice hands-on to improve your direct restorations with composites. The premise of the course is “additive” dentistry where one preserves tooth structure versus “subtractive” dentistry where often too much tooth structure removed. Participants will practice on typodonts to perfect their skills for both posterior and anterior direct restorations. Attendees will learn techniques using numerous etching, bonding, bulk-fill composite and flowable composite materials from a variety of different companies.

REGISTRATION

TUITION	5 COURSE SERIES MEMBERSHIP	EACH INDIVIDUAL COURSE
More than 14 days before an event	Dentist: \$515, Staff: \$295 <i>(Add \$199 for the Hands-on)</i>	Dentist: \$169, Staff: \$139 <i>(\$279 for the Hands-on)</i>
Less than 14 days (Onsite Add \$20 fee)	Dentist: \$515, Staff: \$295 <i>(Add \$229 for the Hands-on)</i>	Dentist: \$189, Staff: \$159 <i>(\$299 for the Hands-on)</i>
