

A decorative banner with a rope border and a central oval containing the word 'KADA'. The banner is set against a dark brown background. The rope border is yellow with black outlines, forming a rectangular frame with rounded corners. Inside this frame is a light yellow oval with a white outline. The word 'KADA' is written in bold, black, uppercase letters in the center of the oval.

# Korean American Dental Association of USA

invites you to attend the

## 2011 Biennial Scientific National Conference

# DECEMBER 16-17, 2011

## Friday & Saturday

**planet hollywood™**  
RESORT & CASINO • LAS VEGAS

-Total 12 CE Credits-

### Saturday, December 17th

### Friday, December 16th

#### Complications of Dentoalveolar Surgery

**David Kim, DDS, MD**

*Diplomate, American Board of Oral and Maxillofacial Surgery*

*Fellow of American College of Oral & Maxillofacial Surgeons, American Association of Oral & Maxillofacial Surgeons*

#### Anesthesia Solutions for the General Practitioner and Specialist

**James Tom, DDS, MS**

*Dentist Anesthesiologist  
Assoc. Clinical Professor*

*The Herman Ostrow School of Dentistry of USC*

#### Interdisciplinary Applications of Orthodontic Mini-Implants

**Christopher Roncone, DDS, MS**

*Christopher Roncone, DDS, MS  
Private practice, Temecula CA  
Lecturer, USC Department of Orthodontics  
President, San Diego Academy of Orthodontists*

#### CAD/CAM:E4D

**Dr. Ed Suh**

*Clinical director at the Nash Institute  
Restorative director for the Raleigh Chapter of the Seattle Study Club*

#### How to Predictably Manage Esthetics in Dental Implant Surgeries and Avoid Esthetic Nightmares (Minimally invasive approach)

**Thomas Han, DDS, MS**

*Adjunct Professor, UCLA School of Dentistry  
Master of Science, Oral Biology, UCLA  
Certificate in Periodontics, UCLA  
D.D.S., UCLA School of Dentistry*

#### Practice Management Seminar

**Mr. Kerry Straine**

#### Implants in Compromised Sites

**Bache Le, DDS, MD, FICD**

*Clinical Associate Professor  
Department of Oral & Maxillofacial Surgery  
The Herman Ostrow School of Dentistry of USC  
Los Angeles County/USC Medical Center*

#### Implant for Life? Reality or Hype? The truth about long-term health and maintenance of dental implants

**Jin Kim, DDS, MPH, MS**

*Diplomate, American Board of Periodontology  
Lecturer, UCLA School of Dentistry  
President, Western Society of Periodontology (2011)*

**HENRY SCHEIN®**

*The Resource for Healthcare Professionals™*

THE ENTIRE 6 COURSE SERIES (42 CA & AGD CEs)  
FOR ONLY \$595**

COURSE SERIES SPONSORED BY:

## COURSE TOPICS

**OSHA, Infection Control and CA DPA:** This course will not only entertain you and your staff but will enable attendees to meet license renewal requirements and state and federal requirements for OSHA Bloodborne Pathogen training, the California Dental Practice Act and Infection Control.

**Comprehensive Cosmetic Dentistry:** Dr. Hess will cover: Esthetic smile design ♦ Determining proper functional incisal edge position ♦ Material selection (including the latest innovations in composite and dentin replacement materials) ♦ Anterior guidance and envelope of function ♦ Keys to photography and lab communication ♦ Dr. Hess will cover larger restorative cases with both indirect restorations and anterior composite restorations, including interdisciplinary cases.

**Hands-on Impression Taking, Provisional and Dentine Replacement Workshop:** This hands-on presentation is designed to familiarize the participants (both doctors and their staff) with the latest methodology, advantages and techniques for proper impressions and fabrication of temporaries or provisional restorations, as well as use of dentin replacement materials in restorations ♦ With simple and easy techniques, participants will utilize models to practice various techniques, using a variety of impression materials, composite resins, the latest bis-acryl resin technology and dentin replacement materials ♦ Light and self-curing composite materials will be demonstrated for ease of use in creating aesthetic temporaries for porcelain laminated veneers, inlay/onlays, crowns and bridges.

**The Ultimate Materials Course:** Dr. Freedman will discuss the latest dental techniques and materials, including how dental sensitivity can be totally eliminated and prevented: 7th and 5th generation adhesive materials, innovations in composites and matrix systems, and single step etch, bond and desensitization ♦ Minimally-invasive Fissurotomy burs – an anesthetic-free approach to caries restoration and repair ♦ Indirect procedures are simplified by easier to use, impression materials and one-step resin cements ♦ One-step post cementation and core build-up techniques ♦ Innovative carbide crown and bridge preparation (GW Ultra) with constant torque high speed electric handpieces. ♦ Predictable digital shade matching ♦ Photo-Activated Disinfection technology offers caries control and remineralization. ♦ Soft tissue lasers (demonstrated on hotdogs)

**Pediatric Dentistry for GP's:** Today's parents demand the best restorations of their children and teen's teeth for function and esthetics. Discussions will include: Glass ionomers, resinomers, composites, and various types of crowns ♦ Esthetic facings for stainless steel crowns and chairside/lab steps ♦ When space maintainers are indicated and the easy fabrication of removable and fixed appliances, including a reference chart of when space maintainers are indicated for each development stage ♦ Enamel microabrasion, direct-bonded and porcelain veneers for teenage patients ♦ Laser Dentistry – learn how to “numb” a tooth in 30 seconds, perform gingivectomies, frenectomies, fibroma excisions, crown lengthening and troughing for crowns and bridge with no shots ♦ Review of traumatic injuries and their treatments, including pulp therapies ♦ Invulsions, dislocations, avulsions and the Ellis Classification of injuries ♦ Radiographic techniques for hard and soft tissue injuries ♦ The protocol for reimplantation of permanent incisors, including splinting mechanisms ♦ The dark primary incisor and treatment of trauma to primary teeth.

**The Esthetics of Implants:** Implant, abutment and final restoration selection all play a vital role to the success of implant treatment. This course covers proper impressing techniques, lab communication, abutment selection, provisionalization, tissue management and prosthetic design ♦ Learn easy techniques to implement in your practice
